## School Enrollment

The ever-enrolled count is the total number of students who are enrolled at any point during the school year; a student who attends a school for one day or 180 days is counted the same way. For this reason, the ever-enrolled count will always be larger than the audit count.

## Finance

Per-pupil expenditures represent the average amount of money spent on educating each student. In other words, this value represents the total amount of actual school expenditures divided by the number of students in the school.

### 2021 Per-pupil Expenditures

Per-pupil expenditure amount is calculated by dividing the total school expenditures by the October enrollment audit count of public school students.

**Per-pupil:** \$17,647

**October Enrollment Audit Count:** 492

### Per-pupil Expenditures by Funding Source

Details are provided about the funding sources for per-pupil expenditures. State/local sources represent revenue received directly from DC, including local grants and per-pupil funding. Federal sources include federal revenue, such as Title I funds and IDEA funding. Per-pupil expenditures are displayed compared to the LEA and DC average.

	State/Local	Federal	Total
