School Enrollment

The ever-enrolled count is the total number of students who are enrolled at any point during the school year; a student who attends a school for one day or 180 days is counted the same way. For this reason, the ever-enrolled count will always be larger than the audit count.

School Safety and Discipline
Information about discipline and school safety in DC, in accordance with the U.S. Department of Education’s Civil Rights Data collection, including suspensions and expulsions for students, school related arrests, reported incidents of violence, bullying, and harassment are available in the OSSE Discipline report and data files (https://osse.dc.gov/page/data-and-reports-0).
Attendance

Review information on attendance below, including in-seat attendance for all students (there is a separate measure of attendance for pre-K students, since pre-K is not compulsory), and the percentage of students chronically absent, meaning that they miss at least 10% of the school days for which they are enrolled throughout the school year at the school. Note: Due to variations in schools schedules, attendance data may have been collected differently by schools on synchronous and asynchronous learning days. As a result attendance data is unique to this school year and not necessarily comparable to prior years.
Student Enrollment Changes

Explore information on how much the population at the school changes throughout the year or from year to year. It shows information about changes in enrollment, including whether students leave or enter the school mid-year, and whether eligible students choose to re-enroll in the school.
